“ George F Molner was my father he was one of the most amazing daddy's anyone could have my life has changed since he died I am grateful that god allowed him to be my father !! George was genuinely interested in my life and he was always ready to tell a joke or give me a hug or tell me what I should do . I wake up every day missing his voice and I know my children are terribly sad that they didn't get to see him. George was a great husband, friend brother and son . He would light up the room whenever he walked into a places and events peopled around him adored and loved him because he was a humble and honest man . My life is darker withr him and I can't imagine ever being ok with him gone . But for now I pray that god bless him and that whenever I leave this earth I hope my Daddy's there in heaven and he will be able to see me again.. I love you and I will miss you your daughter Forever Sharon stone w
